Subject Index to Volume 4

ABO blood groups and hepatitis B antigen and antibody, 1
Aboriginal community, vitamin and nutritional status of a part, 126
Aboriginal health and nutritional status, 198
Acid
  gastric secretion, control by histamine H_2-receptor antagonists; a pharmacological dream come true? 521
  bile secretion, differences in subjects with hypercholesterolaemia, hypertriglyceridaemia and overweight, 491
  orotic, action as a positive inotropic agent during the acute phase of myocardial hypertrophy, 542
Addicts, drug, the covert liver disease of, 444
Adenomas, parathyroid, reversible basal gastric hypersecretion with duodenal ulcer, 292
Adrenergic receptor mechanisms and renin secretion, 237
Albumin and salivary immunoglobulin A—values in children presenting with atypical mycobacterial lymphadenitis compared with normal controls, 159
Alkalosis, metabolic, associated with severe hypercapnia due to pyloric stenosis, 385
Allergy test, in vitro, rat mast cell degranulation assay as an, 187
Alpha$_1$fetoprotein, primary liver and hepatitis B antigen in PNG, 3
Anaemia, aplastic, depletion of B lymphocytes in chronic hypoplastic marrow failure, 538
Anaemia, aplastic, impairment of immunological function in, 53
Analgesic syndrome, 365
Aneurysmectomy, ventricular, for recurrent tachyarrhythmias, 253
Aneurysms of the aortic sinus of valsalva; a review of the clinical, radiological and pathological features, 570
Antibody and hepatitis B antigen and ABO blood groups, 1
Antidepressant self-poisoning, catecholamine levels in tricyclic, 479
Antigen, Australia, in an open heart surgical unit in Hong Kong, 8
Antigen, hepatitis B, a study of the distribution of the major subtypes in Melbourne, 548
Antigen, hepatitis B, primary liver cancer and alpha$_1$ fetoprotein in Papua-New Guinea, 3
Aortic sinus of valsalva, aneurysms of; a review of the clinical, radiological and pathological features, 570
Aplasia, thymic, reconstitution of cellular immune function by foetal thymus grafting in a child with, 267
Aplastic anaemia, depletion of B lymphocytes in chronic hypoplastic marrow failure, 538
Aplastic anaemia, impairment of immunological function in, 53
Arterial pressure measurements in hospitalised patients, comparison of direct and indirect, 485
Arteritis, Takayasu's, pulmonary hypertension in, 581
Arthritis, rheumatoid, absence in schizophrenia, 247
Atrial tachycardia, paroxysmal, with atrioventricular block—a five year experience in Singapore, 219
Atrioventricular block, paroxysmal atrial tachycardia with; a five year experience in Singapore, 219
Australia antigen in an open heart surgical unit in Hong Kong, 8
Australian adults, plasma diphenylhydantoin levels, 449
Australian children, plasma diphenylhydantoin levels, 456
Autoimmune disease, thyrogastric, in patients with chronic idiopathic thrombocytopenic purpura, immunodeficiency and grouping with, 243
Azathioprine and cyclophosphamide as adjuncts in the treatment of systemic lupus erythematosus, a sequential trial comparing, 154

B lymphocytes, depletion in chronic hypoplastic marrow failure (aplastic anaemia), 538
Behaviour patterns, sexual, in male hypertensives, 29
Behcet's syndrome; clinical, immunological and therapeutic evaluation of 17 patients, 585
Bile acid excretion, differences in subjects with hypercholesterolaemia, hypertriglyceridaemia and overweight, 491
Bilirubin, serum and blood urea, elevation in pneumonia, 346
Biochemical diagnosis and radioiodine, simultaneous assessment of thyroid structure and function with gamma camera using pertechnetate: a comparison with, 379
Biochemical studies in a patient with tyrosinosis, 281
Bisalbuminaemia and defective platelets, 182
Blood groups, ABO, and hepatitis B antigen and antibody, 1
Blood urea and serum bilirubin, elevation in pneumonia, 346
Bronchitis, chronic factors affecting the decline of Fev_1 in, 339

Cancer, primary liver, alpha$_1$fetoprotein and hepatitis B antigen in PNG, 3
Carbohydrate intolerance in carcinoma of the lung, 555
Carcinoma, colonic, anti-tumour immunoreactivity in; a guide to early recognition of recurrence, 531
Carcinoma of the lung, carbohydrate intolerance in, 555
Carcinoma, renal, with adult coeliac disease, 62
Cardiac conduction system in acute myocardial infarction, 331
Cardiovascular disease, Busselton, a community study, 412
Carotid endarterectomy, virtues of continuous EEG monitoring during, 32
Carrier detection in Duchenne Type muscular dystrophy, 196
Catecholamine levels in tricyclic antidepressant self-poisoning, 479
Cellular immune function in a child with thymic aplasia, reconstitution by foetal thymus grafting, 267
Cellular-immune response to myelin protein; absence in multiple sclerosis and presence in cerebrovascular accidents, 535
Cerebrovascular accidents, presence of cellular-immune response to myelin protein and absence in multiple sclerosis, 535

Cholesterol metabolism in man and polyunsaturated ruminant fats, 497
Clinical and electrocardiographic study of patients and female carriers of Duchenne pseudohypertrophic muscular dystrophy, 41
Coagulation factor X, a further inherited variant of, 561
Coeliac disease, adult, with renal carcinoma, 62
Colitis, pseudomembranous, recognition as a clinical entity, 502
Colonic carcinoma, anti-tumour immunoreactivity in; a guide to early recognition of recurrence, 531
Conduction system, distal, Wenckebach block in the, 392
Conduction system, cardiac, in acute myocardial infarction, 331
Coronary heart disease and familial hyperlipoproteinaemia, 91
Cryptococcosis and 5-fluorocytosine, 296
Cryptococcosis, systemic, treatment with 5-fluorocytosine, 262
Cyclophosphamide and azathioprine as adjuncts in the treatment of systemic lumpus erythematosus, a sequential trial comparing, 154
Cytosine arabinoside, herpes simplex virus encephalitis treatment with, 274

Dextrodopa, ineffectiveness in chronic granulocytic leukaemia, 475
Diabetes mellitus; a membrane receptor defect, 228
Digitalis toxicity and plasma digoxin, 87
Digoxin levels, plasma, infant versus adult, 223
Digoxin, myocardial concentration, 200
Digoxin, plasma and digitalis toxicity, 87
Diphenylhydantoin, plasma levels in Australian adults, 449
plasma levels in Australian children, 456
Distal conduction system, Wenckebach block in, 392
Dopamine-B-hydroxylase plasma, activity, in paraplegic and quadriplegic subjects, 48
Drug addicts, the covert liver disease of, 444
Drugs, other, competition with salicylate in binding to human serum protein in vitro, 149
Drug trials, patient compliance assessment; usage and methods, 360
Duchenne pseudohypertrophic muscular dystrophy: clinical and electrocardiographic study of patients and female carriers, 41
Duchenne Type muscular dystrophy, carrier detection in, 196
Duodenal ulcer, reversible basal gastric hypersecretion with parathyroid adenomas, 292
Dystrophy, Duchenne pseudohypertrophic muscular: a clinical and electrocardiographic study of patients and female carriers, 41
Dystrophy, Duchenne Type muscular, carrier detection in, 196

EEG monitoring, continuous, during carotid endarterectomy, 32
Electrocardiograms in the Busselton population, 325
Electrocardiographic and clinical study of patients and female carriers—Duchenne pseudohypertrophic muscular dystrophy, 41
Encephalitis, herpes simplex virus, treatment with cytosine arabinoside, 274
Endarterectomy, carotid, virtues of continuous EEG monitoring during, 32
Endoscopy, combined, in upper gastrointestinal haemorrhage, 12
Endoscopy, gastrointestinal; current status and recent advances, 75
Excretion, bile acid, in subjects with hypercholesterolaemia, and overweight, differences in, 491

Familial subaortic membranous stenosis, 576
Fats, polyunsaturated ruminant, and cholesterol metabolism in man, 497
Female carriers, Duchenne pseudohypertrophic muscular dystrophy a clinical and electrocardiographic study of patients and, 41
Fetoprotein, alpha, primary liver cancer and hepatitis B antigen in Papua-New Guinea, 3
Fev_1 in chronic bronchitis, factors affecting the decline of, 339
Fibrillation, ventricular, in type B Wolff-Parkinson-White syndrome, 515
Fibrosarcoma of the pulmonary trunk, primary, 565
5-fluorocytosine, the treatment of systemic cryptococcosis with, 262
5-fluorocytosine, therapy of deep-seated fungal infections with, 462
Foetal thymus grafting, reconstitution of cellular immune function in a child with thymic aplasia by, 267
Fungal infections, deep-seated, therapy with 5-fluorocytosine, 462

Gamma camera using pertechnetate, simultaneous assessment of thyroid structure and function with; a comparison with radioiodine and biochemical diagnosis, 379
Gamma—globulin, aggregated, in hypogamma globulinaemai, leucocyte histamine release studies and skin tests with, 356
Gastric acid secretion, control by histamine H_2-receptor antagonists; a pharmacological dream come true? 521
Gastric emptying, metoclopramide and L-dopa absorption, 144
Gastric, reversible basal hypersecretion with parathyroid adenomas and duodenal ulcer, 292
Gastrointestinal endoscopy; current status and recent advances, 75
Gastrointestinal haemorrhage, upper, combined endoscopy in, 12
Glomerulonephritis with infectious mononucleosis, immune complex-mediated, 192
Goodpasture's syndrome; a review of nine cases and an evaluation of therapy, 167
Granulocytic leukaemia, chronic, ineffectiveness of dextrodopa in, 475

Haemodialysis, maintenance, disordered spermatogenesis in patients with chronic renal failure undergoing, 178
Haemophilia and Von Willebrand's disease, nature of, 66
Haemorrhage, upper gastrointestinal, combined endoscopy in, 12
Heart disease, coronary and familial hyperlipoproteinaemia, 91
Heart
open, surgical unit in Hong Kong, Australia antigen in, 8
Hepatitis, active chronic, humoral immunity in relatives of patients with, 441

Hepatitis B antigen and antibody and ABO blood groups, 1
Hepatitis B antigen, a study of the distribution of the major subtypes in Melbourne, 548
Hepatitis B antigen, primary liver cancer and alpha$_1$fetoprotein in PNG, 3
Hereditary spherocytosis, iron absorption after splenectomy in, 58
Herpes simplex virus encephalitis treatment with cytosine arabinoside, 274
Histamine H_2-receptor antagonists in control of gastric acid secretion; a pharmacological dream come true? 521
Histamine, leucocyte, release studies and skin tests with aggregated Y-globulin in hypogammaglobulinaemia, 356
Hong Kong influenza, pulmonary damage from, 16
Humoral immunity in relatives of patients with active chronic hepatitis, 441
Hypercapnia, severe, associated with metabolic alkalosis due to pyloric stenosis, 385
Hypercholesterolaemia, hypertriglyceridaemia and overweight, differences in bile acid excretion in subjects with, 491
Hyperlipoproteinaemia, familial, and coronary heart disease, 91
Hypersecretion, reversible basal gastric, with parathyroid adenomas and duodenal ulcer, 292
Hypertension, pulmonary, in Takayasu's arteritis, 581
Hypertensives, male, sexual behaviour patterns in, 29
Hypertriglyceridaemia, hypercholesterolaemia and overweight, differences in bile acid excretion in subjects with, 491
Hypertrophy, myocardial, the action of orotic acid as a positive inotropic agent during the acute phase, 542
Hypogammaglobulinaemia, leucocyte histamine release studies and skin tests with aggregated Y-globulin in, 356
Hypoplastic marrow failure, chronic (aplastic anaemia), depletion of B lymphocytes in, 538

Idiopathic thrombocytopenic purpura, chronic, immunodeficiency and grouping with thyrogastric autoimmune disease in patients with, 243
Immune-complex mediated glomerulonephritis with infectious mononucleosis, 192
Immune deficiency syndromes, primary, management of patients with, 396
Immune function, cellular, reconstitution in a child with thymic aplasia by foetal thymus grafting, 267
Immune response to myelin protein, cellular; absence in multiple sclerosis and presence in cerebrovascular accidents, 535
Immunity, humoral, in relatives of patients with active chronic hepatitis, 441
Immunodeficiency and grouping with thyrogastric autoimmune disease in patients with chronic idiopathic thrombocytopenic purpura, 243
Immunoglobulin A, salivary, and albumin: Valves in Children presenting with atypical mycobacterial lymphadenitis compared with normal controls, 159
Immunological function, impairment in aplastic anaemia, 53
Immunoreactivity, anti-tumour, in colonic carcinoma; a guide to early recognition of recurrence, 531
Infections, deep-seated fungal, therapy with 5-fluorocytosine, 462
Infectious mononucleosis, immune complex-mediated glomerulonephritis with, 192
Influenza, Hong Kong, pulmonary damage from, 16
Inherited variant of coagulation factor X, a further, 561
Inotropic agent, positive during the acute phase of myocardial hypertrophy, action of orotic acid as a, 542
In vitro allergy test, rat mast cell degranulation assay as an, 187
Iron absorption after splenectomy in hereditary spherocytosis, 58

L-alpha-methyldopa hydrazine (carbidopa) combined with L-dopa in the treatment of Parkinson's disease, 373
L-dopa absorption in man, variability of, 138
L-dopa absorption, metoclopramide and gastric emptying, 144
L-dopa combined with L-alpha-methyldopa hydrazine (carbidopa) in the treatment of Parkinson's disease, 373
Leucocyte histamine release studies and skin tests with aggregated Y-globulin in hypogammaglobulinaemia, 356
Leukaemia, chronic granulocytic, ineffectiveness of dextrodopa in, 475
Liver cancer, primary, alpha, fetoprotein and hepatitis B antigen in Papua New Guinea, 3
Liver disease, covert, of drug addicts, 444
Lung disease associated with methotrexate therapy, 277
Lupus erythematosus, systemic, a sequential trial comparing cyclophosphamide and azathioprine as adjuncts in the treatment of, 154
Lymphadenitis, atypical mycobacterial—comparison of salivary immunoglobulin A and albumin, in children presenting with, 159
Lymphoma, malignant, complicating Sjögren's syndrome, 287

Malignant lymphoma complicating Sjögren's syndrome, 287
Marrow failure, chronic hypoplastic (aplastic anaemia) depletion of B lymphocytes in, 538
Mast cell, rat, degranulation assay as an in vitro allergy test, 187
Medical records, problem oriented practical application of quality control of patient care, 23
Membrane receptor defect; diabetes mellitus, 228
Membranous stenosis, familial subaortic, 576
Metabolic alkalosis associated with severe hypercapnia due to pyloric stenosis, 385
Metabolism, cholesterol, in man and polyunsaturated ruminant fats, 497
Methicillin administration, nephropathy associated with, 256
Methotrexate therapy, lung disease associated with, 277
Metoclopramide, gastric emptying and L-dopa absorption, 144
Mononucleosis, infectious, immune complex-mediated glomerulonephritis with, 192
Mortality at Sydney Cove, 1788-1792, 111
Multiple sclerosis, absence of cellular-immune response to myelin protein and presence in cerebrovascular accidents, 535
Muscular dystrophy, Duchenne pseudohypertrophic—

clinical and electrocardiographic study of patients and female carriers, 41
Muscular dystrophy, Duchenne Type, carrier detection in, 196
Mycobacterial lymphadenitis, atypical—comparison of salivary immunoglobulin A and albumin values in normal controls and children presenting with, 159
Myelin protein, cellular-immune response to; absence in multiple sclerosis and presence in cerebrovascular accidents, 535
Myocardial digoxin concentration, 200
Myocardial hypertrophy, the action of orotic acid as a positive inotropic agent during the acute phase, 542
Myocardial infarction, acute, cardiac conduction system in, 331

Nephropathy associated with methicillin administration, 256
Nutritional and vitamin status of a part Aboriginal community, 126
Nutritional status and aboriginal health, 198

Orotic acid, action as a positive inotropic agent during the acute phase of myocardial hypertrophy, 542
Overweight, hypercholesterolaemia and hypertriglyceridaemia, differences in bile acid excretion in subjects with, 491

Pancreatitis, complications of chronic, 518
Paraplegic and quadriplegic subjects, plasma dopamine-B-hydroxylase activity in, 48
Parathyroid adenomas and duodenal ulcer, reversible basal gastric hypersecretion with, 292
Parkinson's disease, L-alpha-methyldopa hydrazine (carbidopa) combined with L-dopa in the treatment of, 373
Paroxysmal atrial tachycardia with atrioventricular block; a five year experience in Singapore, 219
Pathogenesis of peptic ulcer, 71
Patient care, quality control of; the practical application of problem oriented medical record, 23
Pattern recognition in medicine—a place for the use of principal component analysis and factor analysis, 509
Peptic ulcer, pathogenesis of, 71
Pertechnetate, simultaneous assessment of thyroid structure and function with the gamma camera using; a comparison with radioiodine and biochemical diagnosis, 379
Plasma digoxin and digitalis toxicity, 87
Plasma digoxin levels, infant versus adult, 223
Plasma diphenylhydantoin levels in Australian adults, 449 levels in Australian children, 456
Plasma dopamine-B-hydroxylase activity in paraplegic and quadriplegic subjects, 48
Platelets, defective, and bisalbuminaemia, 182
Pneumonia, elevation of serum bilirubin and blood urea in, 346
Poisoning, self-, catecholamine levels in tricyclic antidepressant, 479
Polyunsaturated ruminant fats and cholesterol metabolism in man, 497
Primary fibrosarcoma of the pulmonary trunk, 565
Primary immune deficiency syndromes, management of patients with, 396
Primary liver cancer, alpha$_1$fetoprotein and hepatitis B antigen in Papua New Guinea, 3
Problem oriented medical records, practical application, quality control of patient care, 23
Protein, myelin, cellular-immune response to; absence in multiple sclerosis and presence in cerebrovascular accidents, 535
Pseudohypertrophic muscular dystrophy, Duchenne—clinical and electrocardiographic study of patients and female carriers, 41
Pseudomembranous colitis as a clinical entity, recognition of, 502
Pulmonary damage from Hong Kong influenza, 16
Pulmonary hypertension in Takayasu's arteritis, 581
Pulmonary trunk, primary fibrosarcoma of the, 565
Purpura, chronic idiopathic thrombocytopenic, immunodeficiency and grouping with thyrogastric autoimmune disease in patients with, 243
Pyloric stenosis, severe hypercapnia associated with metabolic alkalosis due to, 385

Quadriplegic and paraplegic subjects, plasma dopamine-B-hydroxylase activity in, 48

Radioiodine and biochemical diagnosis, simultaneous assessment of thyroid structure and function with the gamma camera using pertechnetate a comparison with, 379
Receptor mechanisms, adrenergic, and renin secretion, 237
Receptor, membrane, defect, diabetes mellitus, 228
Renal carcinoma, with adult coeliac disease, 62
Renal failure, chronic, disordered spermatogenesis in patients undergoing maintenance haemodialysis, 178
Renin secretion and adrenergic receptor mechanisms, 237
Rheumatoid arthritis, absence in schizophrenia, 247
Rubella vaccination and thrombocytopenia, 352
Ruminant polyunsaturated fats and cholesterol metabolism in man, 497
